

EL PASO INDEPENDENT SCHOOL DISTRICT
Health Services

Provisional Enrollment Letter

Date: _____

Student Name: _____

According to the Texas School Immunization Law, effective September 1, 1982, any student transferring from one school to another in the state of Texas must present a validated document verifying completion of required immunizations upon enrollment. However, a student may be enrolled on a provisional basis for no more than thirty (30) calendar days while awaiting the transfer of the immunization record, if the student is transferring from a school district outside of the EPISD jurisdiction. Should immunizations be needed, information regarding local City-County Health Clinics is available upon request.

I have read the information above and understand that if proper immunization records have not been received by the El Paso Independent School District by _____, my child will be withdrawn from school until valid documentation of immunizations is on file. Furthermore, I realize that it is my responsibility to verify receipt of such records by the individual school prior to the deadline date.
