

Federal Impact Aid

El Paso Independent School District

How Federal Impact Aid is Generated:

- Students with a parent who is active duty, and lives on federal property.
- Students with a parent who is active duty, but does not live on federal property.
- Students who live in low rent housing on federal property.
- Students with a parent who works as a civilian on federal property.
- Students with a parent who performs contract or construction labor on federal property.

Why is it important?

- Property taxes are the major funding source for your child's education. All federal property located within the district's boundaries is tax exempt. In lieu of property taxes, the district is eligible for Federal Impact Aid.

How can you help the district secure Federal Impact Aid?

EPISD has gone paperless -

Check your email, Parent Portal or Student Portal to verify the Census Form for your child.
