_____ Fine Arts: Orchestra, Dance, Theater, Fine Arts
_____ Social Studies Focus
_____ Literature/Writing Focus

We understand that although students are admitted to the Young Women's STEAM Research & Preparatory Academy without regard to race, color, national origin, gender, or handicap, admission to the Academy is limited. The application will not be considered until the campus has received a copy of the latest report card, attendance record, and disciplinary report. Completion of this form does not guarantee admission. If the number of applicants exceeds the allocation of any grade-level cohort, applicants will be randomly accepted through a lottery process. If selected to enroll, we accept the following expectations, challenges, and rigor of the program: participating in a collaborative learning environment, Pre-AP/AP/Dual Credit coursework, engaging in service learning projects, participating in project-based learning while working in a group setting founded in New Tech Network's outcomes and core values of *Trust*, *Respect*, and *Responsibility*, and formalizing a 6-12th grade graduation plan.

Our signatures below indicate that we agree to support and adhere to the program standards currently set forth, as well as though that may be established in the future by the Young Women's STEAM Research & Preparatory Academy. We understand that acceptable conduct, academic progress, and regular attendance are mandatory for continued enrollment.
