# Smoke Alarms for People who are

# Deaf

Smoke alarms and alert devices are available for people who are deaf or hard of hearing

# or Hard of Hearing

## SAFETY TIPS

- When people who are **deaf** are asleep, a bed shaker can wake them so they can escape. The shaker is activated by the sound of a smoke alarm.
- When people who are **hard of hearing** are asleep, an alert device that uses a loud, mixed, high/low-pitched sound can wake them. They may find a bed shaker helpful. These devices are triggered by the sound of the smoke alarm.
- Strobe lights flash when the smoke alarm sounds. The lights warn people of a possible fire.

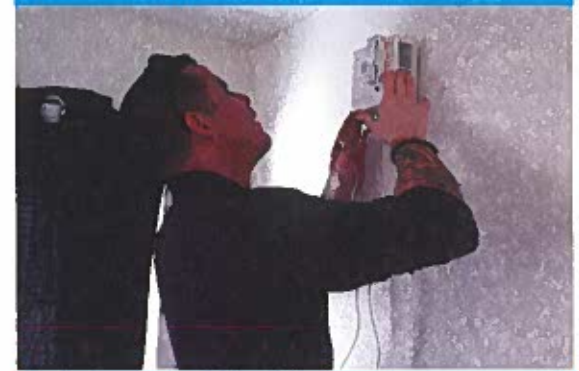

### FOR A FREE BED SHAKER AND A STROBE DEVICE

Visit - *OR CALL 311 OR 212-5699*
