

EPISD BOND Bulletin

CHARLES Q. MURPHREE PK-8
CORONADO HIGH SCHOOL
DON HASKINS PK-8

WESTSIDE | MARCH 2021

The transformation of EPISD through the historic \$668-million bond program voters approved in 2016 is impacting every corner of the District. From the Central core of the District to the fringes on the West Side, Northeast and East-Central, construction crews are hard at work creating modern learning spaces that will help our students and teachers meet the challenges of 21st century education.

EPISD has taken communication about the progress of the Bond to heart by launching one of the most comprehensive public engagement programs for any construction project in the history of El Paso County. Our efforts include pre-pandemic community meetings and the creation of campus task forces to help us in every aspect of the construction process, as well as the launch of the EPISD Bond webpage with a dashboard that gives families up-to-the-minute information on each project. This was all done in our efforts to keep the students, employees and families of EPISD updated.

Now, in an effort further inform the public, EPISD is launching zoned newsletters with updates on progress of the major projects in each of the four geographic areas in the District. These zoned editions will give parents and students more personalized data on schools and projects that most pertain to them. We hope you enjoy it!

EPISD is #BuildingTheFuture.

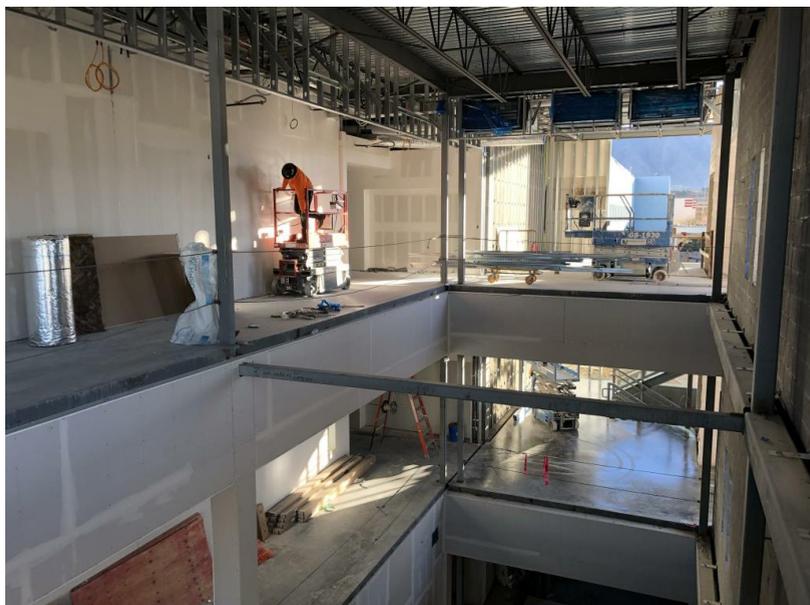

Don Haskins PK-8 School

Bear Beauty. The new Don Haskins PK-8 campus will offer a new library, cafeteria, classrooms, gym, fine arts, football field, and so much more to all future Bears! Renovations to the existing Lincoln Middle School, which will consolidate with Mitzi Bond and Roberts elementary schools, are in progress for a consolidation very soon. Construction at Haskins is 84 percent complete.

Coronado High School

Knowledge is power. The new three-story academic building at Coronado will be home to 26 new classrooms, including science labs, family science, child development lab, and special education facilities. The space also will have collaboration spaces, teacher rooms, a new GECU banking space and administration offices. Construction is 66 percent complete.

Charles Q. Murphree PK-8 School

From renovation to inspiration. Some classrooms in the current Johnson Elementary are getting completely revamped with new colors, wide spaces and staging areas for student activities. The new Charles Q. Murphree PK-8, which will merge Johnson and Morehead Middle, will open Fall 2022. Construction there is 56 percent complete.

Building the Future

A \$668.8 million bond proposal aimed at modernizing and right-sizing the El Paso Independent School District was approved by voters on November 8, 2016. The Bond will help EPISD create 21st Century Learning Environments throughout the District to help facilitate the modern, future-ready teaching and learning techniques that are the focus of instruction in our schools. The Bond also will consolidate schools into modern facilities that will help create a more sustainable inventory of campuses in EPISD. Other areas of focus for the Bond include investments in athletic facilities, school buses, instructional technology and safety and security measures.
