Chow Down. Lunchtime fun will be made even better for the Sun Bears in this new cafeteria with ample seating, more serving lines and all-new kitchen equipment. A built-in partition at Haskins will allow for the dining area to be sectioned off if needed. Existing Lincoln Middle School students are already enjoying this facility.

Windows to a bright future. The new design at Coronado's new three-story academic building allows for plenty of natural light and open spaces. The curtain of windows will be a beautiful addition to the modernized upgrades when the T-Birds move into this facility in the fall of 2021.

Building the Future

A \$668.8 million bond proposal aimed at modernizing and right-sizing the El Paso Independent School District was approved by voters on November 8, 2016. The Bond will help EPISD create 21st Century Learning Environments throughout the District to help facilitate the modern, future-ready teaching and learning techniques that are the focus of instruction in our schools. The Bond also will consolidate schools into modern facilities that will help create a more sustainable inventory of campuses in EPISD. Other areas of focus for the Bond include investments in athletic facilities, school buses, instructional technology and safety and security measures.
